ON-LINE SUPPORT

How the on-line support works?

1. Please register in our web page http://wc4.bmt.cz.
   In case of need please change the language by clicking on the flag icon.

2. You will get a user name and password sent to your e-mail. Please store the user name and password for later use.

3. Contact your local distributor or our company by e-mail or by phone for activation.

4. Through the web page http://wc4.bmt.cz it is possible to download
   - the current version of the program
   - the current user manual
   - request online support for technical problems
   - use more support service from BMT.

Your benefits

- Updated WarmComm versions
- Updated WarmComm manuals
- Updated language localization
- On-line support
- One registration for all user's installations
- On-line communication by coded data saved on the producer's server
- Complete free support for current or future WarmComm installations
